HSC Faculty Senate Council

UNM President Garnet Stokes was the invited guest to the September committee meeting. The HSC Faculty were able to voice any of their concerns and how they could work more closely with the President. To keep herself more in touch, President Stokes wants to start Traveling Office Hours on all campuses that would allow more opportunities for faculty, staff, and students to talk with her.

Recognizing HSC Staff - PAWS Nominees

Meghann Brummett, HR Technician

UNM Comprehensive Cancer Center – Human Resources

Meghann Brummett is someone who truly cares about delivering good work and information. Meghann is very knowledgeable and is always willing to share her ideas, thoughts and best practices. Meghann is always willing to go the extra mile to get needed information and provides excellent customer service to everyone she encounters. In a fast pace and high demand working environment, Meghann maintains a humble attitude and positive collaborative working relationships. Good work Meghann!

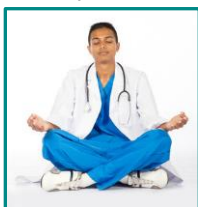

Eimen Ung, Oncology Nurse

UNM Comprehensive Cancer Center – Medical Oncology

Eimen Ung stands out above the others because she will go where she is needed, do the jobs of others, and never complains. She gets along with everyone (patients, staff, and doctors). Everyone seems to go to her because they know she will get the task done or because she is knowledgeable in many areas. She is usually the last to eat lunch and often stays after hour to return all calls for the day, complete forms and place orders. If asked if she has seen a particular staff member, she'll take the time to find their number, though it is out of her work area. Keep up the good work and thank you for setting an example for the rest of us with your quality customer service.

Meditate to Manage Stress:

Faculty, staff and students are welcome to join the HSC meditation group
Mondays & Fridays Noon – 1:00PM HSC Domenici North-Room 2403

Meditation is a potent antidote for our busy, hyper-stimulated lives -- and it has proven benefits for physical and emotional health.

No prior experience is necessary (newcomers' instruction is available). For more information, please contact Michael Haederle (mhaederle@salud.unm.edu).
